This diagram shows a cross-sectional view of a second embodiment of the device. It features a central vertical wall. On the left side, a horizontal member 120 is positioned below the wall. On the right side, a horizontal member 110 is positioned above the wall, and a horizontal member 122 is positioned below the wall. A small rectangular component 112 is located on the right side of the wall, between the upper and lower horizontal members.
